**Subject:** RE: (Tony) PPLS Question, DDL 10/19 10 AM

Here's the link to a database (NPRO) administered by NPIC, and a screenshot of the relevant tab. This information is fed by OPPIN. I'll defer to ITRMD or BEAD for an official take re: the quality of the info for pests and use sites. At the staff level, I'd contact someone like Claire Paisley-Jones. Just let me know if you'd like me to reach out to them.

<http://npic.orst.edu/NPRO/>

Note that you can / probably should select multiple pests using keyword "mosquito", though it seems to require retyping the keyword each time. Clicking the Guide tab however will give the correct, detailed instructions and a contact link.

The screenshot shows a web browser window with the URL <http://npic.orst.edu/NPRO/>. The browser tabs include "Contacts in the Office of Pesticide..." and "NPRO". The page has a navigation bar with tabs: "Home", "Reg.#/Name", "AI/Pest/Site" (which is highlighted with a red box), "Type/Form/SigWord", "Guide", and "About NPRO". Below the navigation bar, the "Active Ingredients:" section is visible, with a hint: "Hint: you can type an ingredient name, EPA PC Code, or CAS number to display ingredients:". Below this is a search input field with the placeholder text "Type to show ingredients...". Below the search field, the "Pests:" section is visible, with a red box around the "Pests:" label. Below "Pests:" is a list of search results for "mosq":

- AEDES MOSQUITO
- SALTMARSH MOSQUITO
- DARK RICEFIELD MOSQUITO
- OPIFEX MOSQUITO (LARVAE)
- AEDES MOSQUITOES (LARVAE)
- CRABHOLE MOSQUITO (LARVAE)
- CULISETA MOSQUITO (LARVAE)

At the bottom of the search results, there are three buttons: "Search This Tab" (highlighted with a red box), "Search All Tabs", and "Refine Previous Search".

Hi Tony,

Any thoughts? Does NPIC provide this search capability via their portal?

Hi,

Sorry to press, but we are hoping to get these answers for OPP IO review by COB. I did see a note from Tim Carrol in our draft doc that stated: **Ex. 5 Deliberative Process (DP)**

## **Ex. 5 Deliberative Process (DP)**

So maybe this isn't something we can really do at this time?

Hi Tony,

Could you provide guidance on how a member of the public can search for products with specific, approved target pests, e.g., mosquitoes?

Best,  
Catherine

Hi Catherine and Kerry,

Just checking on this inquiry and whether you have any insight on how we could respond.

**Subject:** PPLS Question, DDL 10/19 10 AM  
**Importance:** High

Hi Catherine and Kerry,

Ed and Kimberly recently had an interview regarding PFAS in pesticide containers with Tim Wheeler from the Bay Journal. They discussed the recent announcement regarding the new oily method and Permanone results. Tim sent some follow-up questions and I

believe you might be able to help me with the following question regarding PPLS and adulticides. We are on a tight deadline with these, so please let us know if there is a way we can tally these products as soon as possible. Thank you!

**Question:** Ed said he could provide a tally of active ingredients approved for use in combating mosquitoes. I thought he said there was also a PPLS database listing all the products and their uses. I see a Pesticide Product and Label System database, but it seems to be set up only to look for one product, company or chemical at a time. Is there a tally or some way to get one of how many different products have been approved or are on the market for controlling mosquitoes?

Best,

**Rhina M. Lara** (*she/her/hers*)
